

REDEMPTION

For each Warrant exercised, the following amount is paid back to the Investor in the Issue Currency:

Scenario 1	If the Reference Price on the Valuation Date is at or below the Strike Level, the product expires worthless.
Scenario 2	If the Reference Price on the Valuation Date is above the Strike Level, the Investor will receive a Cash Settlement according to the following formula: $(\text{Reference Price} - \text{Strike Level}) \times \text{Conversion Ratio} \times \text{FX}$ Where: FX is the relevant FX rate at or around the time of determination of the Reference Price on the Valuation Date, if applicable. The value achieved when calculating the Redemption Amount is rounded up and off, respectively, to two decimal points. Warrants that are not exercised are automatically exercised on the Last Exercise Date.

Valuation Date	The Valuation Date corresponds to a) In each case of an exercise by the investor, this refers to an Exercise Date on which the option right is effectively exercised by the investor; b) Otherwise, it refers to the Last Exercise Date, on which the option right is considered automatically exercised.
Reference Price	Closing price of the Underlying, as reasonably determined by the Reference Agent.
